Contents

Preface **1**

1 The Psychology of Human Thought: Introduction
Robert J. Sternberg & Joachim Funke **3**
1.1 Goals of Research . . . 3
1.2 Underlying Themes in the Study of Human Thought . . . 4
1.3 Seven Themes Applied to Problem Solving . . . 9
1.4 Conclusion . . . 10
Summary . . . 10
Review Questions . . . 10
Glossary . . . 13

2 History of the Field of the Psychology of Human Thought
Robert J. Sternberg **15**
2.1 The Dialectical Development of Ideas . . . 16
2.2 Early Western Antecedents of the Psychology of Human Thought . . . 16
2.3 Intermediate Periods in the Western History of Understanding Human Thought . . . 17
2.4 The Early Modern Period (1600s to 1800s) . . . 18
2.5 The Modern Period of the Psychology of Human Thought . . . 18
2.6 Functionalism . . . 19
2.7 Pragmatism . . . 20
2.8 Associationism . . . 20
2.9 Behaviorism . . . 21
2.10 Gestalt Psychology . . . 21
2.11 Cognitivism . . . 21
Summary . . . 22
Review Questions . . . 23
Hot Topic . . . 23
Glossary . . . 25

3 Methods for Studying Human Thought
Arndt Bröder **27**
3.1 Introduction . . . 27
3.2 A Natural Science of the Mind? . . . 28

3.3 Why not just Ask People about their Thoughts? . . . 29
3.4 Objective Methods for Investigating Thought Processes . . . 30
3.5 Conclusion . . . 46
Summary . . . 47
Review Questions . . . 47
Hot Topic . . . 48
Glossary . . . 53

4 Concepts: Structure and Acquisition
Kimery R. Levering & Kenneth J. Kurtz **55**
4.1 How Concepts Arise from Experience . . . 56
4.2 Modes of Category Learning . . . 60
4.3 Kinds of Categories and Their Uses . . . 63
4.4 Future Directions in Concepts . . . 64
Summary . . . 64
Review Questions . . . 65
Hot Topic . . . 65
Glossary . . . 70

5 Knowledge Representation and Acquisition
Art Graesser, Anne M. Lippert, & Keith T. Shubeck **71**
5.1 Knowledge Components . . . 72
5.2 The Representation of Knowledge Components . . . 73
5.3 Knowledge Structures . . . 74
5.4 Associative Representations of Knowledge . . . 76
5.5 The Body in Cognition . . . 78
5.6 Conversations . . . 79
5.7 Importance of Media and Technology in Knowledge Representation and Learning . . . 81
Summary . . . 82
Review Questions . . . 83
Hot Topic . . . 84
Glossary . . . 88

6 Metacognition: Monitoring and Controlling One's Own Knowledge, Reasoning and Decisions
Klaus Fiedler, Rakefet Ackerman & Chiara Scarampi **89**
6.1 Introduction: What is Metacognition? . . . 89
6.2 Review of Insights Gained from Metacognition Research . . . 91
6.3 Metacognitive Perspectives on Applied Rationality . . . 100
Summary . . . 103
Review Questions . . . 103
Hot Topic . . . 104
Glossary . . . 111

7 Deductive Reasoning
Jonathan St. B. T. Evans **113**
7.1 The Deduction Paradigm: The Main Methods and Findings . . . 114

7.2 Theoretical Issues in the Psychology of Deduction . . . 121
7.3 The New Paradigm Psychology of Reasoning . . . 125
Summary . . . 127
Review Questions . . . 127
Hot Topic . . . 128
Glossary . . . 132

8 Inductive Reasoning
Janet E. Davidson **133**
8.1 Comparing Inductive Reasoning with Deductive Reasoning . . . 134
8.2 Inductive Reasoning at Its Best . . . 136
8.3 Different Forms of Inductive Reasoning . . . 139
8.4 How Does Inductive Reasoning Develop? . . . 145
8.5 Development of Forms of Induction . . . 147
Summary . . . 148
Review Questions . . . 149
Hot Topic . . . 149
Glossary . . . 154

9 Problem Solving
Joachim Funke **155**
9.1 The Problem Part: What Constitutes a Problem? . . . 156
9.2 The Solving Part: What are the Steps to the Solution? . . . 156
9.3 Problem Solving: What are the Theories? . . . 157
9.4 Methods for Assessing and Measuring Problem Solving . . . 162
9.5 Paradigms and Illustrating Experiments . . . 164
9.6 Conclusions . . . 170
Summary . . . 171
Review Questions . . . 171
Hot Topic . . . 171
Glossary . . . 176

10 Decision Making
Julia Nolte, David Garavito & Valerie Reyna **177**
10.1 Types of Models of Decision Making . . . 177
10.2 Foundational Concepts . . . 177
10.3 Theoretical Frameworks . . . 178
10.4 Dual Process Theories of Decision Making . . . 180
10.5 Heuristics and Biases . . . 183
10.6 Decision Strategies . . . 187
10.7 Conclusion . . . 188
Summary . . . 188
Review Questions . . . 190
Hot Topic . . . 190
Glossary . . . 196

11 Nature of Language
Lisa von Stockhausen & Joachim Funke **199**
11.1 Language Acquisition . . . 200
11.2 Bi- and Multilingualism . . . 201
11.3 Language as Embodied Simulation . . . 202
11.4 Alignment in Dialogue . . . 203
11.5 The Role of Language in Representing and Constructing Social Reality . . . 205
Summary . . . 208
Review Questions . . . 208
Hot Topic . . . 209
Glossary . . . 212

12 Language and Thought
Andrea Bender **213**
12.1 The Principle of Linguistic Relativity . . . 213
12.2 Thinking before and after Language . . . 216
12.3 Thinking with Language . . . 218
12.4 Language as Tool for Thought . . . 223
Summary . . . 226
Review Questions . . . 227
Hot Topic . . . 227
Glossary . . . 233

13 Expertise
David Z. Hambrick **235**
13.1 The Science of Expertise: A Brief History . . . 235
13.2 Testing the Deliberate Practice View . . . 239
13.3 Beyond the Deliberate Practice View . . . 243
13.4 Conclusions . . . 246
Summary . . . 247
Review Questions . . . 247
Hot Topic . . . 248
Glossary . . . 253

14 Intelligence
Oliver Wilhelm & Ulrich Schroeders **255**
14.1 Understanding Intelligence . . . 255
14.2 Measuring and Using Intelligence . . . 262
14.3 Conclusions . . . 267
Summary . . . 268
Review Questions . . . 269
Hot Topic . . . 269
Glossary . . . 275

15 Creativity: An Overview of the 7C's of Creative Thought
Todd Lubart & Branden Thornhill-Miller **277**
15.1 Creators: Person-Centered Characteristics . . . 277

15.2 Creating: The Creative Process . . . 282
15.3 Collaboration: Co-Creation . . . 286
15.4 Contexts: Environmental Conditions . . . 288
15.5 Creations: The Nature of Creative Work . . . 290
15.6 Consumption: The Adoption of Creative Products . . . 292
15.7 Curricula: Developing Creativity . . . 293
Summary . . . 297
Review Questions . . . 297
Hot Topic . . . 298
Glossary . . . 305

16 Wisdom
Judith Glück **307**
16.1 What is Wisdom? . . . 307
16.2 How Can Wisdom Be Measured? . . . 309
16.3 Is Wisdom a Stable Personal Characteristic—Or Are We All Wise Sometimes? . . . 315
16.4 Where Does Wisdom Come From? . . . 316
Summary . . . 320
Review Questions . . . 321
Hot Topics . . . 321
Glossary . . . 326

17 Development of Human Thought
Kathleen M. Galotti **327**
17.1 Defining the Domain: Realms of Thought . . . 327
17.2 Infancy and Toddlerhood . . . 328
17.3 The Preschool Period . . . 330
17.4 Middle Childhood . . . 332
17.5 Adolescence . . . 333
17.6 Conclusion . . . 336
Summary . . . 336
Review Questions . . . 337
Hot Topic . . . 337
Glossary . . . 340

18 Affect and Thought: The Relationship Between Feeling and Thinking
Joseph Forgas **341**
18.1 Affect Congruence: Affective Influences on the Content of Thinking . . . 342
18.2 Affective Influences on Thinking Strategies . . . 348
18.3 Conclusions . . . 354
Summary . . . 355
Review Questions . . . 356
Hot Topic . . . 356
Glossary . . . 361

19 Culture and Thought
Mary Gauvain **363**
19.1 A Brief Historical Look at Psychological Research on Culture and Cognition 364
19.2 Defining the Relation of Culture and Cognition 366
19.3 Thinking in Niches 367
Summary 373
Review Questions 374
Hot Topic 374
Glossary 379
